Hello Petra:

Thank you for submitting the amendment to the LBNL PCB Cleanup Application.

This message is to clarify how I am proceeding with LBNL's Application:

- Our commitment is to approve the original application within 56 days after the date we received it.
- Therefore, I will be focusing on the approval of the original Application.
- Review and approval of the amendment will be completed after the approval of the original application is issued.
- I consider the application amendment to be a separate submission to EPA with its own deadline.
- What do I need now to complete processing the original application and complete preparation of the approval? I need your clarifications on the original application

I look forward to receiving your clarifications on the original application so I can deliver the

approval by our targeted date.

Thank you for your courtesies.

Sincerely,

Carmen
